

Do Not Consume Notice Rescinded

Issued: **May 12 2022 10:04AM PDT** by **RDCK Water Notifications**

Locations: **RDCK**

Effective immediately, a **Do Not Consume Notice** that was issued for users on the Erickson Water System has been rescinded.

Instructions

On May 11, 2022 a Do Not Consume Notice was placed on the Erickson Water System due to non-toxic but elevated chlorine residual levels. The Regional District Operations department has confirmed that chlorine residual levels are now within water treatment objective parameters and customers may return to normal use. Should you continue to experience a strong chlorine smell, let your water run for a few minutes to allow the lines to flush out.

Additional Information

The Regional District apologizes for any inconvenience and thanks you for your patience as we worked to resolve the situation. For more information contact the RDCK (250) 352-8161 or 1-800-268-7325 ext. 8161, or visit our website at www.rdck.ca/water.
