

Well Replacement Update

Issued: Jul 06 2022 3:30PM PDT by RDCK Water Notifications

Locations: [RDCK](#)

This notification is to inform residents in the Woodland Heights water system on the progress of securing a new water source.

Instructions

The RDCK is pleased to inform residents that the new well has been drilled, developed, and pump tested to a potential yield of 25 US gallons per minute. Pump sizing and connection design is underway. An Interior Health source water approval and waterworks construction permit are required prior to commissioning. The RDCK is anticipating project completion by fall of 2022. .

Additional Information

Please note that Stage 1 Water Conservation Measures are currently in effect for all RDCK water systems. Additional Conservation Measures may be implemented if hot, dry weather persists. For more information contact the RDCK (250) 352-8161 or 1-800-268-7325 ext. 8161, or visit our website at www.rdck.ca/water.
