#### 5. BUSINESS ARISING OUT OF THE MINUTES

#### 5.1 **Capital Request Policy**

The following resolution was passed at the October 2019 WKBRHD Board meeting:

51/19 That the following policy resolution within the current Policy Manual be REFERRED to the WKBRHD Executive Committee for review:

Resolution no. 13-98:

That the West Kootenay-Boundary Regional Hospital District Board of Directors concurs with the recommendation of the Executive Committee to adopt the following criteria for considering capital requests:

*I.* SAFETY AND RISK MANAGEMENT: Reduces risk to clients, staff, volunteers, capital property etc. or decreases the amount of potential liability.

Does this project address a safety hazard or reduce risk? If yes, describe the concern and how the project will address the issue.

*II. EFFECTIVENESS:* Successfully achieves the right results, outcomes or goals that are consistent with best practices models.

How will this project improve program effectiveness? Describe how your current facility compromises program effectiveness.

*III. EFFICIENCY:* Achieves the right outcomes using the least operating funds. Best operating cost per unit of service delivered.

Does this project result in efficiencies? Include summary of expected cost savings and proposed use of savings (eg. balance budget, improve quality of care or increase volume of service). Is this the least cost solution?

*IV.* EFFICIENT USE OF CAPITAL RESOURCES: The project results in least cost or cost avoidance, for capital and maintenance over the anticipated useful life of the facility.

What does this proposal achieve in better use of existing capital resources? How does it support the maintenance of capital assets?

V. EQUITY/ACCESS: Provides a range and volume of services for the catchment population based on provincial targets/standards/averages.

How will this project improve access? Will it increase service capacity, service mix or change the distribution of services in the region?

The matter was considered at the May 25<sup>th</sup>, 2020 Executive Committee meeting:

#### RECOMMENDATIONS

- 1. That WKBRHD Policy Resolution no. 13-98 be rescinded.
- 2. That Interior Health Authority representatives be invited to provide the WKBRHD Board with a robust description of their capital planning processes from the IHA–wide level down to the local level and that includes IHA criteria for selecting projects.

#### 5.2 New Policy Development

The following resolution was passed at the October 2019 WKBRHD Board meeting:

55/19 That the consideration of new policy development for areas identified in the WKBRHD Policy Manual Review board report dated October 16, 2019, and for other emergent issues not listed in the report, be referred to the WKBRHD Executive Committee and staff for initial development.

The matter was considered at the May 25<sup>th</sup>, 2020 Executive Committee meeting:

#### RECOMMENDATIONS

- 1. That staff be directed to develop policy pertaining to the following:
  - (a) WKBRHD mandate;
  - (b) WKBRHD funding portion as a percentage of overall project cost;
  - (c) Board consideration of health care matters not related to capital funding requests; and
  - (d) Board receiving delegations regarding matters outside of Board mandate.
- 2. That each newly elected WKBRHD Board engage in a policy review following every general municipal election.

#### 5.3 Bylaw No. 358: WKBRHD Procedure Amendment Bylaw

In accordance with Section 225 of the Local Government Act the WKBRHD Procedure Amendment Bylaw No. 358, 2020 was mailed to Directors on October 14, 2020 for review.

(Procedure Bylaw Amendment)	WEST KOOTENAY-BOUNDARY REGIONAL HOSPITAL DISTRICT PROCEDURE AMENDMENT BYLAW NO. 358

#### 3. NEW BUSINESS

3.1 May 27, 2020 Interior Health/ Regional Hospital District Meeting

The Executive discussed the upcoming May 27, 2020 Interior Health/Regional Hospital District meeting held by teleconference and attended by Chair Hewat and Secretary Treasurer Horn. Secretary Treasurer Horn outlined the format and purpose of the meeting and a discussion took place regarding the impacts of COVID-19 on the health care budget.

#### 3.2 Policy Referred from the WKBRHD Board

The committee reviewed policy no. 13-98 which was referred to the Executive by way of the following resolution passed at the October 2019 meeting.

51/19 That the following policy resolution within the current Policy Manual be REFERRED to the WKBRHD Executive Committee for review:

#### Resolution no. 13-98:

That the West Kootenay-Boundary Regional Hospital District Board of Directors concurs with the recommendation of the Executive Committee to adopt the following criteria for considering capital requests:

I. SAFETY AND RISK MANAGEMENT: Reduces risk to clients, staff, volunteers, capital property etc. or decreases the amount of potential liability.

Does this project address a safety hazard or reduce risk? If yes, describe the concern and how the project will address the issue.

*II.* EFFECTIVENESS: Successfully achieves the right results, outcomes or goals that are consistent with best practices models.

How will this project improve program effectiveness? Describe how your current facility compromises program effectiveness.

*III. EFFICIENCY: Achieves the right outcomes using the least operating funds. Best operating cost per unit of service delivered.* 

Does this project result in efficiencies? Include summary of expected cost savings and proposed use of savings (eg. balance budget, improve quality of care or increase volume of service). Is this the least cost solution?

*IV.* EFFICIENT USE OF CAPITAL RESOURCES: The project results in least cost or cost avoidance, for capital and maintenance over the anticipated useful life of the facility.

What does this proposal achieve in better use of existing capital resources? How does it support the maintenance of capital assets?

V. EQUITY/ACCESS: Provides a range and volume of services for the catchment population based on provincial targets/standards/averages.

How will this project improve access? Will it increase service capacity, service mix or change the distribution of services in the region?

The importance of establishing a criteria to determine what projects are chosen was discussed.

**MOVED by** Director Pasin and seconded, And Resolved:

That it be recommended to the Board that WKBRHD Policy Resolution no. 13-98 be rescinded.

**MOVED by** Director Pasin and seconded, And Resolved:

That it be recommended to the Board that Interior Health Authority representatives be invited to provide the WKBRHD Board with a robust description of their capital planning processes from the IHA—wide level down to the local level and that includes IHA criteria for selecting projects.

#### Carried

#### 3.2 New Policy Development

The Board referred the initial consideration of new policy development to the Executive for by way of the following resolution:

55/19 That the consideration of new policy development for areas identified in the WKBRHD Policy Manual Review board report dated October 16, 2019, and for other emergent issues not listed in the report, be referred to the WKBRHD Executive Committee and staff for initial development.

A list of possible policy topics was excerpted from the report received at the October 25, 2019 WKBRHD Board meeting:

The following are policy/issues discussed by the Board in the last two years which are possible areas for development:

1. WKBRHD mandate;

- 2. WKBRHD funding portion as a percentage of overall project cost;
- 3. Board consideration of health care matters not related to capital funding requests;
- 4. Board receiving delegations regarding matters outside of Board mandate;
- 5. Long term capital planning
- 6. Prioritization of rural/urban facility funding; and
- 7. Prioritization of asset types for funding.

**MOVED by** Director Pasin and seconded, And Resolved:

That it be recommended to the Board that each newly elected WKBRHD Board engage in a policy review following every general municipal election

Carried

**MOVED by** Director Worley and seconded, And Resolved:

That staff be directed to develop a policy pertaining to the following:

- 1. WKBRHD mandate;
- 2. WKBRHD funding portion as a percentage of overall project cost;
- 3. Board consideration of health care matters not related to capital funding requests; and
- 4. Board receiving delegations regarding matters outside of Board mandate; and

#### 3.3 UBCM Priorities

Chair Hewat facilitated a discussion of priority topics for the 2020 UBCM conference. The 2019 UBCM meeting briefing notes were attached for reference. The conference will be facilitated remotely. Discussion focused on the primary care network, the KBRH project, and supporting IHA in their specific request to the Province for funding local projects on their capital projects list. The Committee agreed to continue the discussion at a future Board or Executive Committee meeting.

#### 3.4 Next Meeting

The Executive agreed that another Executive Committee meeting be scheduled for June 11, 2020 at 9:00 a.m. via WebEx.

#### 3.1 UBCM Conference Strategy

Chair Hewat facilitated a discussion to identify lobbying priorities for a meeting with the Minister of Health at the upcoming UBCM conference. Secretary Treasurer Horn reviewed historic priorities previously discussed with the Minister. Several possible priorities were discussed by the Executive, with an extensive discussion of the access and parking issues at Kootenay Boundary Regional Hospital. Director Pasin committed to providing background documents for consideration of this matter by the WKBRHD Board at a future meeting. The Executive determined that the following priorities be discussed with the Minister:

- 1. A focus on funding primary care networks and continued implementation of this model in our region,
- 2. Improving patient transport services and accessibility to rural and remote heath care facilities,
- 3. Funding to address critical parking issues at Kootenay Boundary Regional Hospital in Trail, and

## Motivated to make access to healthcare better!

Interior Medical Transport believes that where you live should not determine your access to medical care.

IMT is dedicated to assisting citizens in accessing transportation to health care regardless of significant distances or barriers. We believe where you live should not impact your health!

## How can IMT can help IHA

- Alleviate transportation challenges and obstacles to the Kootenay region of IHA.
- Provide a dedicated, scheduled alternative for patient transports
- Decreasing the unpredictability of scheduling and a large response area which can create a lack of resources or ambulances being redirected for priority emergency calls thus creating long wait times or delays of service for patients.
- By decrease the wait time for patient transfer which results in cost savings for IHA and a reduced bottleneck of patient beds.

IMT is here to assist IHA in improving transport time and services to the community and hospitals

### CITY OF TRAIL PROJECT UPDATE KOOTENAY BOUNDARY REGIONAL HOSPITAL SECOND ROAD ACCESS – ON HOLD

The City of Trail (the City), with input from Interior Health (IH), recently concluded a comprehensive engineering evaluation pertaining to the construction of a second access road to the Kootenay Boundary Regional Hospital (KBRH). Trail Council provided funding within the City's 2019 Capital Plan to complete this evaluation as Council had identified the review and potential development of a second access road as a strategic priority. After assessing the associated costs, options, and impacts provided in the engineering review, it was agreed there wasn't a preferred option that the City and IH could directly support at this time. The engineering evaluation process, details of the project options, and the rationale to put the project on hold are described below.

The City retained TRUE Engineering, an engineering and planning consulting firm, to oversee design, budget development, and the planning process for a number of potential KBRH second access road options. IH staff were given the opportunity to provide comments in response to the options that were developed. Four full-access options, ranging in construction costs between \$6.3 million and \$9 million, were then advanced for further discussion (see the first four options in the <u>KBRH Second Access</u> <u>Options Summary document</u> on pages 1 through 2). Costs varied depending on where the road would start and enter the KBRH property. Due to the significant costs to construct the road to municipal standards, an additional option was developed that included constructing a one-lane emergency access road to the property (see the last option in the <u>KBRH Second Access Options Summary document</u> on page 3). At an estimated cost of \$2.35 million, this one-lane road would be more economical to construct; however, the results of the <u>KBRH Road Access Natural Hazard Review</u>, conducted by SNT Geotechnical Ltd., mitigates the immediate need for a multi-million dollar expenditure.

The estimated construction costs, as well as integration onto IH property, were all critical issues considered in the assessment. Also, the elevation gain over a rather short distance was a complicating factor; and, the location of the BC Ambulance Service (BCAS) station and Harbour House at the north end of the property also impacted options and cost estimates.

Although the City has put the second access road to KBRH on hold, the project has not been abandoned. The City intends to continue the engaging and meaningful dialogue with IH and the province regarding how best to advance the project, should conditions change or if third-party funding can be secured. The development of the road could be triggered by the eventual relocation of the current BCAS station as the City previously advanced a proposal to the province to relocate the station to City-owned property on Rossland Avenue. The City will continue to pursue this issue directly.

IH's input was invaluable to the process and the City did not want to advance a preferred design to the public for review and comment that did not meet the needs of all stakeholders involved. Further, when considering the City's current capital priorities and the cost of the road, Council felt it would be difficult to garner the public's support if long-term borrowing was the preferred funding source (the assent of the electorate is a legal requirement). The City also intends to discuss the matter further with the Regional Hospital Board to gauge whether or not the Board would support the provision of all or part of the costs required to proceed, recognizing that KBRH provides service to the larger West Kootenay region.

In conclusion, the City's support for KBRH is unwavering. While the second access road will not proceed immediately, the City will remain engaged with the hopes of supporting further enhancements that directly support the regional health care facility.
