| 50 | Large commercial vehicles are very very dangerous on Pass Creek Road. We are unable to allow children to bicycle on road the last 10 yrs. There is No community togetherness now in Pass Creek-people from citys have moved in and are very disrespectful to property owners. They trespass, drive 90+ km/h on windy pass creek road and are Beligerant. I Do Not Feel Safe Or peacefull anymore as when I grew up. Everyone knew who's property belonged to who and where Respectful. The Now majority of Pass Creek Residents are disrespectful, ruin the nature + Driving quads, Loud and rip up properties. Many original people have moved out and I am seriously thinking to sell and move away from the Drinking, Drug Using people who live in Pass Creek! There is No Safety or Peace. I want a Country + Farm Atmosphere again! | 8/23/2016 10:03 AM |

My concern is at night when vandalism has taken place - knocked over mailboxes, picnic tables burned on the beach, littering all around the village, skid-marks on our roads, and so on. I'm not sure how we can protect ourselves completely from this, because we can't wall ourselves off. But it is unsettling. | 7/12/2016 12:05 PM |

Q43 The Regional District currently requires that construction be located a distance from lakes, rivers and creeks for the purposes of floodplain management. In some areas of the RDCK there are regulations for riparian assessments if construction is less than 30 meters from a creek, river or lake. Should Electoral Area I be subject to similar requirements to protect water quality and

habitat?

| 1 | I don't really have much hope for any of this as our governments are out of control and out to lunch without a care for anything but big business. My land is intentionally being flooded by people all over the world. This obviously means no more room for wildlife or locals. I am very sad for what I have already seen. | 9/6/2016 3:59 PM |

| 10 | This survey had terms not well explained. Confusing? Policy changes should not be done based only on such a survey as the true feeling of the individual is hard to understand from such broad questions. This is a good start but a second one should be done after the list is condensed. Or town Hall meetings should be held. There needs to be a way to set true feelings of all residents not just the loud ones. | 8/24/2016 10:59 AM |

| 15 | Thirty years ago there was no elk and all small farmers planted gardens and now we can't afford fencing but yet live on ALR properties and end up buying our vegetables, fruit etc.The RDCK should get rid of all the elk and not support the hunters that live in towns or build fences to enclose the animals on the mountains. The RDCK should take a stand on gravel pits in residential areas in most cases it affect, 2 to 3 people is not an excuse to say we can't do nothing because it is controlled by mines act | 8/23/2016 3:29 PM |
| 16 | We are being groomed by the new world order to control every facit of our lives till we can't breath. The right the (?) and manage our own land will soon be in jeopardy. We are heading for a dictatorship. Land owners need to act responsibility. We need to treat our resources with respect. | 8/23/2016 1:38 PM |
| 17 | RDCK can use its influence to stop sale of crown lands in my community to private individuals. RDCK: Work with environment conservation officer and Forestry Ministry to erect signs on crown lands which are easily accessed by irresponsible people who start fires under trees, camp and leave much garbage. Signs should state: " No fires permitted - Fines enforced No Overnight Camping. Haul in, Haul out" or words to that effect. RDCK take stewardship of ball park in pass creek. | 8/23/2016 12:45 PM |
| 18 | Land owners should have option to use a holding tank for household waste water and contract with city of Nelson or Castlegar for wastewater disposal. I believe the present bylaw disallowing holding tanks is based on an assumption that a property owner will dispose of waste water in an improper way. This questionnaire obviously well intended is very poorly constructed. | 8/23/2016 11:20 AM |

| 20 | ALR should be reduced to 5 acre lots. Soils in the area do not support agriculture but acreage should remain large enough to support domestic animals, cows, chickens, horses. | 8/23/2016 9:10 AM |
| 21 | Allowance to plots of land to be taken smaller than 2 acres. A simple and stream lined process for breaking down parcels of land into smaller lots. | 8/18/2016 9:14 AM |
| 22 | As far as developing the area, industrial and commercial should be concentrated in the Castlegar area where there is a lot lacking. We're struggling to keep our public schools open in our communities, shouldn't this be a priority? We have chosen a certaibn lifestyle, of we wanted smaller lot sizes or commercialism, we'd of moved to a subdivision. This area is Shoreacres need to be protected to preserve a lifestyle; | 8/12/2016 2:29 PM |

| 27 | would strongly support Davidoff if he would consider changing the bylaws related to freeing up the land use regulations pertains to lot sizes & family dwellings usage. This is so old fashioned its stupid & descriptory! Voykin was in the darkages & Davidoff & few other Directors are following down the same path | 8/8/2016 11:55 AM |
| 28 | Let's establish where each resident lives. There is controversy in our area. Is is Central Glade or Terry's? There is no distinct boundary. It should be established and posted!! There should be a concentrated under brush clean up on all old recreational roads & surrounding areas used for hiking etc. This is very difficult but garbage dumping needs to be enforced and heavily fined. | 8/8/2016 11:29 AM |
| 29 | -The protection and lack of negative human impaction to the Slocan pool, forest and waterfront must be stressed here as important. Wildlife corridor & high diversity habitat, native heritage sites, low impact- recreation to interact and enjoy this very special and unique place -Water Use: in this decade of drought there seems to be no discussion or sense of urgency about reducing wasteful water use. ie. watering of sidewalks (driveways, midday irrigation using sprinklers, industrial water use) RDCK must take a leadership role here, too. | 8/8/2016 9:47 AM |
| 30 | The RDCK should carefully and seriously consider restricting access to the crown land area in Brilliant at the confluence of the Kootenay and Columbia Rivers. Current users are very quickly damaging the eco-system and environment with motorized access, destroying grasses and wildlife habitat and leaving garbage and debris. | 8/7/2016 9:47 AM |
| 31 | The Kootenays is the most beautiful place to live. We are truly blessed. What ever is done to improve our lives should not in any way compromise the beauty + integrity of our home + the wildlife we share it with. | 8/5/2016 4:28 PM |

| 32 | Making trails, roads, public lands, non motorized greatly impacts people with mobility issues that like to use said areas. Private land is just that! Private, Public Land is for everyone not just the eco freako hippies and their only use it the way we want to use it mentality. There are plenty of access points to river that don't cross private land and they should be maintained and posted so water can be used by people who don't own land adjoining it. If you own land beside public land or water expect people to use the public land and make noise or have fun doing it, and don't bitch about it, you bought there. Deal with it or MOVE! | 8/5/2016 4:16 PM |
| 33 | I have some concern around traffic noise from the highway especially at night. Alos until recently there was no road sign at one of the two enterances to my road. Now there is one sign. Better signage for side roads like mine including advance markers would make entering and exiting my road's other secondary/side roads like it much safer | 8/5/2016 3:08 PM |
| 34 | Please retain ALR status in all areas that now have it. Once agriculture lands are subdivided & developed for residential on light industrial they are lost forever for the use of local security. | 8/5/2016 2:42 PM |
| 35 | People are being overgoverned at all levels No level of government is held accountable. people in the lower mainland can't afford to live their anymore and that's whats going to happen here. without common sense in all levels of government these questions are hard to answer and very concerning. many people also have no common sense that's what is causing these problems. Just watch the news and you can see that most people are not happy with government in general and talking to local people they are very unhappy with the RDCK. The name should be changed to what it really is. Regional Dictatership of Communist Kootenays | 8/5/2016 2:25 PM |
| 36 | we have no children in schools, but we still have to pay! We pay for two hospitals, we are on a fixed income, so I do think we pay enough taxes. There is tax on everything we buy. Where is all that tax money going? Now you say you might want to suck more out of us :(| 7/29/2016 9:27 AM |

| 38 | Glade is mostly in ALR however no one has a-ok that is (1) commercial green house. The soil generally lacks nitrogen and very difficult to grow, rocky or sandy a few have a cow or a horse that this area is not an agricultural area and needs to be taken out, nice to live here but to restrict ALR | 7/28/2016 4:27 PM |

| 40 | Thank you for seeking community feedback. It is extremely important. | 7/28/2016 1:02 PM |
| 41 | Generally people tend to regulate themselves in a proper manner. Any minor disputes are handled locally. No need for more regulations. Don't be tempted to over develop area for commercial purposes as these tend to be short term gains if any. Just make what is already in place work better. Where are the initiatives for alternative energy? I use extensive solar for power generation and H2O heating. | 7/28/2016 12:47 PM |
| 42 | should carefully consider applications for subdivision. This could change the rural setting risking other development. Energy efficient upgrades or new builds are not an affordable option. Government grants and reduction of cost are needed. Community gardens are needed. Food banks should be provided area as well. Programs for compost/worm compost/rain barrels/ low flush toilets/Radon reduction for business//commercial buildings. Noise bylaws for commercial business near residential homes ie Lumber yard. Desperate need of high speed internet in Tarry's/Thrums for private and business . Unavailable for years and not in future plans for Telus or Shaw. | 7/28/2016 12:32 PM |
| 43 | Enforcement of current existing Bylaws should NOT be dependent on neighbor reporting neighbor there are blatant infractions that a bylaw officer could easily spot should time be given to a community drive through. Preserving our current lifestyle is very important-we like the country for fresh air, clean water and privacy and peace and quiet, Encroachment on this lifestyle is very apparent. Keeping our clean water is critical yet newer members in our community seem totally oblivious-what they are doing affects the entire community. Need Bylaw education and ENFORCEMENT! | 7/28/2016 11:17 AM |
| 44 | The area along Voykin Subdivision-on side of highway-attempt to get "highways" YVR to clean up and remove large old trees that are dangerous in windstorms and in general. "West-side" trees that are in ditch on highway side along the Voykin subdivision are dead white pine and up to 45m height-some clean up is sin order please. Thank you | 7/28/2016 10:52 AM |

Electoral Area I Community Land Use Survey

|----|--|--------------------|
| 50 | Dog control is a major nuisance in our community. I would like to see something change. Dog control is a problem in this community. Is there not already a bylaw in place? Also a concern is schools. In this community (Shoreacres) we are forced to drive or bus our small children 24 km each way to get to public school when Brent Kennedy and Mount Sentinel are 4 km away. The catchment lines need to be re-configured. I would also like to see a controlled railway crossing at the only entrance and exit of Shoreacres. That is a huge safety concern. There are enough residents living here to warrant a safer railway crossing. I am very strongly opposed to a public boat launch/access to the water. We have a great amount of traffic as it is coming to look around for a place to launch their boats and people end up trespassing and being disrespectful. | 7/27/2016 10:59 AM |
| 51 | I see a lot of the questions imply the need for increased government services which always translates to increased taxation. How about a survey on approaches to decrease taxation? | 7/27/2016 10:36 AM |
| 52 | I am sick and tired of people keeping all old cars, trucks, tractors and machinery. Time for a PLAN. What an eyesore, overseas visitors cannot believe people are allowed to keep a yard that looks like a junk yard. | 7/27/2016 8:56 AM |
| 53 | Do not over engineer. Do not create more bureaucracy. Don't legislate our water use. Do not sell our water. BC is unique, it is not like other provinces. People want to enjoy what is here now as it is. We don't want to pay more and are generally happy with what we got. Government wants to build and get bigger - we do not have to. | 7/27/2016 8:48 AM |
| 54 | The raising and lowering of the water on an hourly basis on the Kootenay River (Brilliant Head Pond) should never be allowed. The documents signed by Cominco in the 1950s was to do with water control during spring flooding and not for Columbia Power to do as they please. This should be stopped now. There is no respect for the public usage of waterways for the name of profit. | 7/26/2016 5:08 PM |
| 55 | The absolute largest threat to our community is the proposed logging by ATCO and Kalesnikoff in the Glade watershed. The could/would dramatically change the face of our community in a most negative way with no one but the logging companies themselves watching over this process, it can only spell bad news for our watershed, infrastructure and the tranquility of our area. Furthermore with no protection from government at any level in the event of a disaster that impacts our watershed (we would be expected to work something out with the logging company) it makes sense that the only course of action for many Glade residents is no logging at all. It is appalling that our governments have placed us in this situation. | 7/26/2016 5:00 PM |
| 56 | Floodplain management of Columbia and Kootenay River junction. Becoming a very high use fishing, trail walking and now camping area. It would be a very good idea to install a pit latrine to control the waste and a garbage can. | 7/26/2016 3:09 PM |
| 57 | Please do something about how bylaw operates, allowing people to complain and then hide unknown behind a bylaw officer is childish when in reality no one complies with the bylaws. It tears communities apart and gets everyone pissed off with one another. Maybe try and get them to speak to each other and talk about it like how adults would do it. Cheers :) | 7/22/2016 2:55 PM |
| 58 | Lot sizes of .75 hectare by legal subdivision as opposed to .8 for a family member to many lots in this area, with multi dwellings all in the name of "poor family member" Let owners pay a development fee and have a proper survey done at .75 hectare and stop the abuse of the so called family clues the places, junk buildings on lots. | 7/12/2016 2:12 PM |
| 59 | I thought of something from an earlier question about services. It is this: I want to get my water tested annually and preferably through a local service provider. This is apparently not possible. I have to somehow take the sample, get it quickly to a courier service, and have it sent either to Edmonton or Alberta within 24 hours, so the sample is still "living". If you could help us with this, that would be fabulous. Also, courier services are bad and getting worse, not that I expect RDCK to do anything about it, but maybe, you could look at specific necessary businesses (water and soil testing services, couriers, for examples) and give them some kind of incentive for setting up here. Thank you for asking our opinions about the future of our community. | 7/12/2016 12:27 PM |
| 60 | RDCK should establish rules for controlling operation of gravel pits. Excessive Noise, dust and smoke are an ever growing issue, as well as increased operating hours. | 7/9/2016 12:28 PM |
