

Retaining Wall or Structure Building Permit Checklist

Owner Name: _____

A building permit is required for all retaining structures equal to, or greater than 1.5m (5') in height.

All documentation is required at the time of permit application unless otherwise specified.

Refer to the Regional District Official Community Plan, Zoning Bylaws and Floodplain Management Bylaw for development restrictions related to your building permit application. If an application is non-compliant with applicable bylaws, it may increase the application processing time. Please check the Bylaws at rdck.ca or call 250-352-8176.

Excerpt from RDCK Building Bylaw No. 2200, 2010:

21.0 Retaining Structures

21.1 A registered professional must undertake the design and conduct field reviews of the construction of a retaining structure greater than 1.5 meters (5 ft.) in height. Sealed copies of the design plan and field review reports prepared by the registered professional for all retaining structures greater than 1.5 meters (5 ft.) in height shall be submitted to a building official prior to acceptance of the works.
