

Institutional Building Permit Checklist

Owner Name: _____

Use this checklist for new buildings or for renovations. Discuss with RDCK staff to determine if your project falls within the 'Commercial', 'Industrial' or 'Institutional' checklist.

'Institutional' generally refers to uses such as public schools, community halls and centres, and post-disaster buildings such as emergency response, or public water treatment facilities.

All documentation is required at the time of permit application unless otherwise specified.

Refer to the Regional District Official Community Plan, Zoning Bylaws and Floodplain Management Bylaw for development restrictions related to your building permit application. If an application is non-compliant with applicable bylaws, it may increase the application processing time. Please check the Bylaws at rdck.ca or call 250-352-8176.

SCOPE

New Building

Proposed use of the Building? _____

Tenant Improvement or Renovation

Proposed use of building or suite? _____

Previous use of building or suite? _____

Coordinating Professional (Architect or Engineer), and full professional design are required for the following:

Qualifies as a *complex building* under RDCK Building Bylaw for major occupancies as:

- Assembly occupancies (buildings including community halls and schools)
- Public care or treatment occupancies
- Four or more stories in height
- Building footprint $\geq 600 \text{ m}^2$ (6500 sq. ft.)
- Post-disaster building

The Coordinating Professional is responsible to determine the involvement of other professionals, such as electrical, mechanical, and fire safety consultants.

Professional design may be required within institutional buildings when:

The use of the building or suite is changing OR any of the following is affected:

- Building structure
- Building envelope (cladding or windows)
- exiting or egress paths
- Fire separations or suite demising walls
- Access for persons with disabilities (such as a new washroom or voluntary accessible upgrades)
