REGIONAL DISTRICT OF CENTRAL KOOTENAY
ZONING BYLAW No. 1675, 2004

The BOARD of the Regional District of Central Kootenay in open meeting assembled ENACTS as follows:

DIVISION 1 TITLE

100 This Bylaw may be cited for all purposes as the Regional District of Central Kootenay Zoning Bylaw No. 1675, 2004.

DIVISION 2 APPLICATION

200 The Regional District of Central Kootenay Zoning Bylaw No. 1675, 2004 applies to the following areas of the Regional District:

- 1 All of Electoral Area F; Electoral Area I; Electoral Area J – Lower Arrow/Columbia; and Electoral Area K –The Arrow Lakes, as identified on Schedule 'A' – Zoning Map.

201 The provisions of this Bylaw include:

- 1 Schedule 'A' – Zoning Map.
- 2 The boundaries of the zones listed in this Bylaw, together with any explanatory legends, notations and reference in respect thereof, are delineated and described on the "Zoning Map" noted which consists of a computer record compiled by means of geographic information software. The "Zoning Map" is kept in the office of the Secretary and in the Planning Department at the Regional District office. The Schedules form part of this Bylaw. A generalized diagrammatic representation of the Zoning Map is annexed to this Bylaw as Schedule 'A'. In the event of a conflict or inconsistency between Schedule 'A' and the Zoning Map, and in the event that the Zoning Map shows and provides more information than Schedules, then in all such cases the Zoning Map shall prevail.

202 The attached schedules form part of this Bylaw and constitute the Regional District of Central Kootenay Zoning Bylaw No. 1675, 2004 pursuant to Part 14 of the *Local Government Act* of British Columbia.

DIVISION 3 TRANSITION

300 The Regional District of Central Kootenay Creston Valley Land Use Bylaw No. 795, 1989, is hereby repealed.

DIVISION 6 GENERAL REGULATIONS

Non-Conforming Uses and Siting “Grandfathering”

600 Non-conforming uses and siting shall comply with all applicable requirements of Section 528 of the *Local Government Act*.

Clear Vision Area

601 No person who owns or occupies land at the intersection of two (2) or more highways may place or grow any tree, shrub, plant, fence or other structure within the sight triangle above an elevation such that an eye one (1) metre above the surface elevation on one highway cannot see an object one (1) metre above the surface elevation of the other highway as shown on the site triangle on Figure 1. The Ministry of Transportation and Infrastructure is the final authority for sight distance on the roads under their jurisdiction and for the purpose of subdivision.

SIGHT TRIANGLE (Figure 1)

Site Areas

602

- 1 There shall be no minimum site area for trails, parks, playgrounds and unattended public utility buildings and structures.
- 2 The minimum lot size for a parcel subdivided under Section 514 of the *Local Government Act* shall be the minimum site area of the zone in which the parcel is located unless otherwise stated.
- 3 Despite any other provision of this bylaw, where a parcel of land is located in the Agricultural Land Reserve as identified under the *British Columbia Agricultural Land Commission Act*, no subdivision shall be permitted without approval from the Agricultural Land Commission.
- 4 Despite any provision of this bylaw, any lot located on any land rated as an ‘E’ or ‘P’ on a Non Standard Flood & Erosion Area under any applicable Regional District of Central Kootenay Floodplain Management Bylaw currently in effect for this area and

amendments thereto cannot be further subdivided unless flood protective works are constructed to an appropriate standard as determined by the authority having jurisdiction and maintained by an ongoing authority.

- 5 Lots that are shown on a plan duly filed in the Land Title Office, which have less than the minimum site area required in this bylaw may be used for any permitted use in the zone where the lot is located provided that the method by which sewage is to be disposed of complies with any restrictions set out under any regulation under the Public Health Act and provided that all other requirements applicable to the zone can be met.
- 6 Despite any other provision of this bylaw, no subdivision shall be permitted where the proposed lots cannot each accommodate two (2) full septic systems as determined by the Interior Health Authority where no community sewer system is in place.
- 7 No newly created lot shall be bisected by a legally dedicated road.

Reduction of Minimum Lot Areas

603

- 1 Where two or more contiguous lots registered prior to adoption of this bylaw have less than the minimum lot size required by this bylaw, the lots may be consolidated into fewer lots than exist at the time of application as long as no new lot created is smaller than any previously existing lot.
- 2 Where it is not possible to create a lot that has the minimum lot size required for a zone, the minimum lot size requirement may be reduced where the proposed subdivision involves any one of the following and meets local health authority requirements:
 - a. a boundary adjustment that does not create, or make it possible to create additional lots to those that exist at the time of application;
 - b. a lot that, at the time of adoption of this bylaw, is divided by a highway or forest service road and where the boundaries of the highway or road will be the boundaries of the proposed lots; or
 - c. a lot where two or more single detached, duplex or combination of single detached and duplex dwellings existed prior to adoption of this bylaw except within any agricultural zone;
 - d. *Deleted by Bylaw 2680.*
- 3 The minimum lot area for a lot created under Sections 603(1) and 603(2) shall be 0.2 hectares where serviced by a community water system and 0.4 hectares where not serviced by a community water system.

- 4 Despite Section 603(3), where a dwelling has been constructed across a legal property line prior to the adoption of this bylaw, lot lines may be adjusted so as to allow property owners to legitimize the structure as long as no lot is reduced in lot size.
- 5 A reduction of the minimum lot size for a single lot for subdivision within any Agricultural zone shall be permitted subject to:
 - a. the lot being no smaller than 0.4 hectares in area;
 - b. where the lot is serviced by a community water system; and
 - c. where the remainder of the lot is consolidated with an adjacent property that has an agricultural tax assessment from the British Columbia Assessment Authority or is within the ALR or created under Section 514 of the *Local Government Act*.

Subdivision Servicing Requirements

604

- 1 All subdivisions shall comply with the provisions of the *Local Services Act* and the Subdivision Regulations thereto.
- 2 All subdivisions shall be in full compliance with any Regional District of Central Kootenay Subdivision Bylaw currently in effect for the area.
- 3 All subdivisions shall comply with the *Drinking Water Protection Act*, the *Public Health Act* and the *Environmental Management Act*.

Setback Requirements

605

- 1 Unless otherwise stated, no principal or accessory building or structure except a fence may be located within 7.5 metres of a front or exterior side lot line or within 2.5 metres of any other lot line.
- 2 Despite Section 605(1), buildings and structures shall be setback a minimum of fifteen (15) metres from lot lines adjacent to the Agricultural Land Reserve boundary.
- 3 Unless otherwise stated no portable sawmill may be located within 100 metres from a property line.
- 4 Despite Section 605(1), on all lots having a residential zone and are less than 0.2 hectares in area, the minimum setback to front or exterior lot lines shall be 4.5 metres.
- 5 Despite Section 605(1), for all of Electoral Area F, unless otherwise stated in the zone, no principal or accessory building or structure except a fence may be located

within 4.5 metres of a front or exterior side lot line or within 2.5 metres of any other lot line.

Note: BC Building Code regulations may require greater setbacks than those identified in Section 605 and Section 606 of this bylaw.

Setback Exceptions

606

- 1 Where the top surface of an underground structure projects no more than 0.6 metre above the average finished ground elevation, that structure may be sited in any portion of a lot.
- 2 Freestanding lighting poles, warning devices, antennae, masts, solar collectors, utility poles, wires, and flagpoles up to ten (10) metres in height may be sited on any portion of a lot.
- 3 Where chimneys, cornices, leaders, gutters, pilasters, belt courses, sills, bay windows, or ornamental features project beyond the face of the building, the minimum distance to an abutting lot line as permitted elsewhere in this bylaw may be reduced by not more than 0.6 metre providing such reduction shall apply only to the projecting feature.
- 4 Where steps, eaves, sunlight control projections, canopies, balconies, or porches project beyond the face of a building, the minimum distance to an abutting front lot line as permitted elsewhere in this bylaw may be reduced by not more than 1.2 metres and the minimum distance to an abutting site lot line or rear lot line as permitted elsewhere in this bylaw may be reduced by not more than 0.6 metre provided such reduction shall apply only to the projecting feature.

609 Except in the M2 and M3 zones, no lot may be used as a junkyard, auto wrecking yard or for the outdoor storage of more than two (2) wrecked vehicles in any R1, R2, R5 and R6 zones or more than six (6) wrecked vehicles in any R3, R4 and AG zone.

Uses Permitted in All Zones

610 The following uses shall be permitted in any zone:

- 1 ecological and archeological conservation areas retained in their natural state;
- 2 passive recreation for informal, low intensity recreation activities such as walking, hiking and biking trails and wildlife viewing platforms;
- 3 Park established by the Regional District of Central Kootenay, Provincial or Federal Government;
- 4 Park established by Section 510 of the Local Government Act where the land is dedicated as park by a plan deposited in the Land Title Office;
- 5 Fire halls; and
- 6 Unattended public utility buildings and structures.

Shipping Containers

610A Shipping containers shall be permitted for use as accessory buildings subject to the requirements that:

- 1 The maximum number of shipping containers for storage or other accessory use permitted on a lot at any one time shall be limited to:
 - a. None for lots in any R1, R5, R6, R7, MFR-F, HR-I or ER zone;
 - b. One (1) for lots in any R2, C5, or I zone;
 - c. Two (2) for lots in any R3, R4, AG, C1, C2, C3, C6, M1 or M2 zone; and

- d. unlimited in other zones.
- 2 Any shipping container used as an unattended utility building or structure is exempt from the provisions of Section 610A(1).
- 3 Any shipping container placed on a lot as an accessory building must comply with site coverage, siting, size and setback requirements for that zone.
- 4 Any shipping container used as an accessory building must be screened from view from the roadway(s) and adjacent residential properties using a landscape screen or fencing of a height no less than 2.5 metres.

Recreational Vehicles

610B

- 1 A recreational vehicle may be parked or stored on a property to a maximum of two (2) vehicles.
- 2 A recreational vehicle may only be used as temporary living or sleeping quarters as per Accessory Tourist Accommodation, Temporary Guest Accommodation and Campground regulations, but can not be connected to services associated with the principal or an accessory dwelling.
- 3 Notwithstanding 610B(2) a recreational vehicle may be used to provide temporary accommodation on a property during construction of a principal or accessory dwelling on a lot, provided that:
 - a. a building permit has been issued for the principal or accessory dwelling and the dwelling is under construction; and
 - b. the occupancy of the recreational vehicle shall not continue beyond commencement of occupancy of the permanent dwelling.

Parking Space Requirements

611 Off-street parking spaces for each building and use shall be provided in accordance with the following:

Application of Regulations

The Ministry of Transportation and Infrastructure standards for required parking spaces will apply when dealing with matters that are within its jurisdiction, such as highway access permits.

Regional District standards will apply with respect to the location, design and construction of the parking spaces. Regional District standards with respect to the required number of spaces will also apply in any situations where the Ministry of Transportation and Infrastructure standards are lower, or where the Ministry of Transportation and Infrastructure has no jurisdiction.

General Provisions

- 1 Space for the off-street parking and loading of motor vehicles in respect of a class of building or use under this bylaw must be provided and maintained in accordance with the provisions of this bylaw except where the buildings and structures are intended to be accessed exclusively by hiking, skiing, snowmobile, horseback, boat or aircraft.
- 2 The number of off-street parking and loading spaces for motor vehicles required for any use or class of building is calculated according to the table contained in this Section. In cases of mixed uses, the total requirements for off-street parking or off-street loading will be the sum of the requirements for the various uses calculated separately unless otherwise permitted. Required off-street parking spaces for one use will not be considered as required off-street parking spaces for any other use.
- 3 In reference to a building or use permitted under this bylaw which is not specifically referred to in the table below, the number of off-street parking and loading spaces is calculated on the basis of the requirements for a similar class of building or use that is listed.
- 4 Where the calculation of the required off-street parking or loading space results in a fraction, one parking space must be provided in respect of the fraction.
- 5 Where seating accommodation is the basis for a unit of measurement under this section and consists of benches, pews, booths or similar seating accommodation, each 0.5 m of length of such seating shall be deemed to be one seat.
- 6 Off-street parking and loading spaces must be located on the same parcel as the building or use they serve unless a suitably zoned site is located within 50 metres of the site.
- 7 Where some or all of the off-street parking is provided on a parcel other than that on which the use, building or structure being served is located, a covenant under Section 219 of the Land Title Act must be registered in the Land Title Office in favour of the Regional District of Central Kootenay against the parcel to be used for parking, reserving the off-street parking spaces that are not on the same parcel as the use, building or structure that they are intended to serve, for as long as that use, building or structure exists.
- 8 Off-Street Parking Space Standards
- 9 Off-street parking spaces shall be a minimum of 17.0 square metres and shall have at all times convenient, vehicular access to a public thoroughfare.
- 10 Each parking space shall have a length of not less than 5.8 metres and a width of not less than 2.6 metres and a height of not less than 2.2 metres.

- 11 Where a parking space abuts a wall along its side, the width of the parking space shall be increased by 0.6 metres from the minimum required.
- 12 Access and manoeuvring aisles must not be less than 3.6 metres for one-way traffic and 6.6 metres for two-way traffic.
- 13 Required parking and associated manoeuvring aisles in all Multi-Unit Residential, Commercial and Industrial zones shall be surfaced with either asphalt or concrete pavement, be adequately provided with lighting and drainage facilities, have access to and from highways and provide one (1) disabled person's parking space for every ten (10) parking spaces required.
- 14 In all parking areas containing more than five (5) parking spaces, every off-street parking space must have curbs, or wheel stops, to prevent vehicles from overhanging parcel lines, landscaped areas or walking corridors.
- 15 All parking areas must contain adequate provisions so that vehicles may turn around on the parcel.
- 16 All parking areas shall be so designed that motor vehicles do not back out onto a public road.
- 17 The maximum slope for the required off-street parking in all Multi-Unit Residential, Commercial and Industrial zones to accommodate more than 3 spaces is 6%. The maximum slope applies only to the area that provides the required parking spaces and not to the driveway providing access to the required parking spaces.
- 18 Excepting recreational vehicles (maximum two) and farm vehicles, not more than one (1) vehicle with a gross vehicle weight in excess of 4000 kg shall be permitted on a lot in a Residential or Agricultural zone at any time, except vehicles that are required for construction, repair, servicing or maintenance of a premises which may be on the lot during daylight hours.
- 19 Where off-street parking is required by this bylaw and where access for a person with disabilities is required, parking space(s) will be provided in accordance with the British Columbia Building Code and amendments thereto.
- 20 Where drive-through facilities are installed, there must be adequate magazine storage provided on the parcel to accommodate three (3) automobiles between the property line and the ordering station. Direct access to off-street parking spaces from the magazine storage is prohibited.

Off-Street Loading Facilities

612

- 1 Off-street loading facilities for commercial and industrial uses involving the receipt and delivery of goods or materials by vehicles shall be one (1) space for the first

1,200 m² of gross floor area or fraction thereof, plus an additional space for each additional 2,000 m² of gross floor area or fraction thereof.

2 Off-street loading facilities shall:

- a. be provided on the same parcel as the use it serves;
- b. be set back a minimum of six (6) metres from the designated fronting street;
- c. have a minimum of 30 m² in area, at least three (3) metres in width and four (4) metres in height for each space;
- d. not project into any street, lane or public thoroughfare;
- e. have unobstructed vehicular access to a public street or lane;
- f. be located to the rear or side of a principal building if possible; and
- g. have a durable dust free surface.

Keeping of Farm Animals

613

For the purposes of this Bylaw, Animal Units (A.U.) means equivalencies as indicated in the following table:

<u>Sheep</u>	A.U.	<u>Swine</u>	A.U.
ewe	.14	sow	.33
yearling ewe	.10	boar-young (18-90 kg)	.20
lamb ewe	.07	boar-mature	.33
ram	.14	gilt	.33
yearling ram	.10	bred gilt	.33
lamb ram	.07	weaner (less than 18 kg)	.10
nursing lamb	.05	feeder (18-91 kg)	.20
feeder lamb	.10	suckling pig	.01
breeding lamb	.10		
<u>Cattle</u>	A.U.	<u>Poultry</u>	A.U.
cow & calf	1.00	chickens	.015
2 yr. old	1.00	turkeys, raised	.0125
yearling	.67	turkeys, breeding stock	.02
calf	.25	geese	.02
bull	1.00	ducks	.015
<u>Horses</u>	A.U.	<u>Other</u>	A.U.
horse	1.00	goats	.14
colts 1-2 years	.50	rabbit	.025
colts, under 1 yr.	.25	mink	.025

Where the keeping of farm animals are permitted, the following provisions are required:

- a. On lots less than 0.4 hectares (1.0 acres), the total number of farm animals and poultry shall not exceed 0.5 animal units. No roosters will be permitted on lots less than 0.4 hectares (1.0 acres).
- b. On lots greater than 0.4 hectares (1.0 acre), the total number of farm animals and poultry shall not exceed two animal units per hectare. No building, structure or enclosure used for housing more than 0.5 animal units shall be located within 7.5 metres (25 feet) of a lot line.
- c. No drinking or feeding troughs or manure piles may be located within 7.5 metres (25 feet) of a lot line.
- d. Where the calculation of the number of animals results in a fraction, the result shall be rounded down.

Information note: Where a lot is smaller than 0.4 hectares (1 acre) in area, a maximum of 33 chickens could be kept (0.5 A.U. divided by 0.015 A.U. per chicken= 33.33 chickens). On a two hectare lot, 6 yearling cattle could be housed (2.0 A.U. divided by 0.67 A.U. times 2.0 hectares = 5.97 yearlings).

Hazard Land Development

613 Despite any other provisions of this bylaw, development on flood hazard lands should be flood proofed in accordance with those provisions specified in any applicable Regional District of Central Kootenay Floodplain Management Bylaw and amendments thereto. Subdivision potential may be limited by the Approving Officer due to site-specific hazards.

Manufactured Home Parks

614 Where a site contains two (2) or more manufactured homes and meets the density requirements of the R1, R2, R3, and R4 then the parcel is not a manufactured home park pursuant to this bylaw.

Agricultural Land Commission

615 Despite any other provision of this bylaw, development of lands within the Agricultural Land Reserve is subject to the *British Columbia Agricultural Land Commission Act*, Regulations and Orders.

Mining Activities

616 Any mineral or mining management activity relating to the exploration or production of minerals, sand, gravel, coal or quarries that is classified a 'mineral' under the *Mineral Tenure Act* or a 'mine' the *Mines Act* shall not be restricted by any terms or conditions of this bylaw so long as the Ministry of Energy, Mines and Petroleum Resources manages the activities and land for that purpose.

Signs

617 Unless otherwise prescribed in this bylaw, all signs are subject to the requirements that:

- 1 No sign shall be located within 1.5 metres of any lot line.
- 2 Signs shall be limited to the following;
 - a. A maximum height of 7.5 metres,
 - b. A maximum area of ten (10) square metres,
 - c. A maximum width of 1.5 metres, and
 - d. One sign for each public road access.
- 3 *Deleted by Bylaw 2680.*
- 4 Signs advertising community events or public service announcements or political campaign signs during an election are exempt from the requirements of Sections 618(1) and (2).

- 5 Signs associated with the operation of on-site businesses and activities such as parking, loading, vehicle movement, employee and visitor safety and other similar signs are exempt from the requirements of Sections 618(1) and (2).
- 6 Signs may be illuminated provided that glare is contained onsite when adjacent to any residential, agricultural, institutional, park and recreation zoned property.

Zone Boundaries

619

- 1 The extent of each zone is shown on Schedule 'A' – Zoning Map, which is incorporated in and forms part of this bylaw.
- 2 Where the zone boundary is designated as following a road allowance, creek or other body of water, the centre line of the road allowance, creek or body of water shall be the zone boundary.

- 3 Where a zone boundary does not follow a legally defined line and where the distances are not specifically indicated, the location of the boundary shall be determined by scaling from the zoning sheets referred to in Section 620(1).
- 4 Any area not specifically shown on Schedule 'A' – Zoning Map, shall be deemed to be zoned Open Space (OS).
- 5 In circumstances where a single lot is located in more than one zone, the provisions of this Bylaw that regulate the use of land, buildings and structures; the density of the use of land, buildings, and structures; the siting, size, and dimension of buildings and structures, and uses permitted on the land; the location of uses on the land and within the building and structures; and the shape, dimension, and area of all parcels of land that may be created by subdivision; shall apply as if the zone boundary were a property line, and in the case of subdivision, be in compliance with the largest minimum area that applies to that lot or portion of the lot being created.

Landscaping Requirements - Applicability

620 Due regard should be given to the following to incorporate landscaping into neighbourhood design:

- 1 Provision of privacy for outdoor and indoor spaces through use of plant screens, walls or fences;
- 2 Separation of distinct areas allocated to different types of activities;
- 3 Reduction of glare or illumination from automobile traffic, street lighting or other sources;
- 4 Direction of pedestrian circulation away from privacy areas onto designated paths with vegetation and varied paving textures;
- 5 Curtailing erosion on steep grades;
- 6 Control of noise from streets or activity areas;
- 7 Environmental modification, such as the blocking of wind.

General Regulations for Landscaping

621

- 1 In a multi-unit residential development including manufactured home parks, any part of a lot not used for structures and associated parking areas shall be fully landscaped and properly maintained as a landscaping area, or as undisturbed forest.
- 2 At least 30 percent of the total area of any lot used for multi-unit residential purposes shall be maintained as open space landscaped area in a permeable state.
- 3 Any off-street parking area, exterior display area or loading area on a lot used for Commercial or Industrial purposes shall:

- a. be provided with screening in the form of a fence not less than 1.5 metre in height or by a hedge not less than 1.5 metre in height at the time of planting where adjacent to a lot in any Residential zone; such screening shall be planted or installed so that no person shall be able to see through it;
- b. be separated from any directly abutting lot in any Residential zone and from any adjoining highway other than a lane, by a fully and suitably landscaped and properly maintained strip not less than 1.5 metres in width.

4 Where any lot is used for commercial, industrial and institutional purposes, any part of such lot that is not used for buildings, exterior display areas, parking or loading facilities shall be maintained as a landscaped area, or as undisturbed forest.

5 Where any off-street parking area for four (4) or more vehicles is located within 4.5 metres of a front or exterior side lot line, it shall be screened by an evergreen hedge not less than 1.5 metre in height at the time of planting. The minimum width of soil area for the hedge shall be 0.75 metres. The hedge shall be planted one (1) metre from curbs or wheel stops.

6 The design, installation and maintenance of any landscaping area or screen should be in conformity with the current specifications of the 'British Columbia Landscape Standard' prepared by the B.C. Society of Landscape Architects and the B.C. Nursery Trades Association.

7 In the Quarry zone, a landscape screen or a continuous three (3) metre high opaque fence shall be maintained within the 100 metre setback required for any processing operation.

Development Permit Variances

622 Pursuant to Section 489 of the *Local Government Act*, setback and height variances may be approved by the Regional District on a Development Permit where community plan objectives for the form and character of commercial, industrial and multi-unit housing developments can be achieved provided that no siting variances cross a property line.

Accessory Dwelling Units

623 An accessory dwelling unit is subject to the following regulations:

- 1 The maximum number of accessory dwelling units per lot is one.
- 2 The minimum lot size for an accessory dwelling unit shall be 1.0 hectare.
- 3 Notwithstanding section 623(b) secondary suites are permitted on all lots.
- 4 The maximum gross floor area is 90.0 square metres.
- 5 The maximum height is 8.0 metres.
- 6 The maximum number of storeys is 2.

- 7 An accessory dwelling unit must be serviced by an on-site sewerage disposal system in accordance with the Sewerage System Regulations of the Public Health Act and it must be demonstrated that there is a suitable back up field area on the parcel unless a community sewer system is available in which case connection to the community sewer system is required.
- 8 An accessory dwelling unit is not permitted to be used as accessory tourist accommodation or a short term rental.
- 9 The accessory dwelling unit shall not be a recreational vehicle or other vehicle.
- 10 A secondary suite shall not be connected to a single detached house by a breezeway or carport.

DIVISION 53 DEVELOPMENT PERMIT AREAS

5300 For the area covered by this Zoning Bylaw, the Sentinel Mountain Electoral Area I Official Community Plan Bylaw No. 2821, 2022 designates Development Permit Areas (DPAs) and describes the special conditions or objectives that justify their designation. The exemptions and guidelines for all DPAs are contained within this Zoning Bylaw. Where “Post Development Guidelines” are specified in the DPA, they are incorporated as conditions into all Development Permits for the DPA issued by the Regional District of Central Kootenay.

5301 The following general DPA guidelines apply:

- 1 As part of a development permit application made prior to any of the applicable triggers for a development permit identified in section 489 of the *Local Government Act* and RDCK’s bylaws, and prior to undertaking any such activities or development, the owner of the applicable land is solely responsible for:
 - a. providing the information identified in the following guidelines;
 - b. proposing only activities and development consistent with the following guidelines;
 - c. not undertaking any activities or development inconsistent with the following guidelines; and,
 - d. not undertaking any activities or development without a development permit.
- 2 If disturbance to a DPA occurs outside of the scope of the conditions of an issued development permit then the property owner must submit a new development permit application including all accompanying documentation, fees, and Development Approval Information.
- 3 Post Development Guidelines for DPAs designated under Section 488(1)(a) of the *Local Government Act*:
 - a. Unless explicitly excluded in a development permit issued by the Regional District of Central Kootenay, the owner of the applicable land must provide a post development report prepared by the relevant qualified professional(s) of an assessment of all permit conditions. The report must assess if the development is in compliance with the applicable development permit conditions and the land has been developed in accordance with the qualified professional’s recommendations within their report.
- 4 Compliance with DP Standards, Requirements and Conditions of Development Permit:
The owner of land within a DPA must:
 - a. comply with all applicable standards set out within, and the requirements and conditions of, a development permit.

- b. In an Aquifer Protection Development Permit Area or Riparian Protection Development Permit Area, provide a report prepared by a qualified professional, as described further in the sections below.
- c. In an Aquifer Protection Development Permit Area or Riparian Protection Development Permit Area, provide a post development guideline report as described in section 5501.3.

DIVISION 54 ELECTORAL AREA 'I' AQUIFER PROTECTION DEVELOPMENT PERMIT (APDP) AREA

Activities that require a Development Permit

5401

The owner of land within the APDP Area must obtain a development permit prior to undertaking or permitting or acquiescing in the undertaking of the following activities wherever they occur on land within the APDP Area:

- a. disturbance of soils;
- b. construction or erection of buildings and structures;
- c. creation of non-structural impervious or semi-impervious surfaces;
- d. construction of roads, trails, retaining walls, docks, wharves and bridges;
- e. provision and maintenance of sewer and water services;
- f. development of drainage systems;
- g. development of utility corridors;
- h. subdivision as defined in section 455 of the *Local Government Act*; and
- i. any other activity that requires a development permit first be issued in accordance with section 489 of the *Local Government Act*.

Exemptions

5402 A Development Permit is not required for the following activities:

- a. Construction, renovation, repair to an existing building that does not increase the building's footprint;
- b. Construction of a driveway to a residence except for excavation of a depth greater than 1.5 metres;
- c. Construction of unserviced buildings accessory to residential use such as a garage or greenhouse;
- d. Construction of a single detached home on a lot least one hectare in area or greater and is the only dwelling unit present;
- e. Digging of observation holes for percolation testing under supervision of a Registered Onsite Wastewater Practitioner or Professional Engineer, and digging of test pits for geotechnical investigation under supervision of a Professional Engineer;
- f. Onsite wastewater disposal system installation meeting the requirements of the *Sewerage System Regulation of the Public Health Act*;
- g. Subdivision of land where the proposed lots sizes are at least one hectare in area or greater;
- h. Technical subdivision for road widening, parcel line adjustment, or lot consolidation of a parcel that does not create a new lot; and
- i. The activity is part of a farm operation as defined by the *Farm Practices Protection (Right to Farm) Act* and the lands are assessed as 'farm' under the *BC Assessment Act*.

Guidelines

5403

- 1 All applications for an APDP shall be accompanied by a report prepared by a Professional Engineer or Geoscientist with experience in hydrogeology as Development Approval Information. The report should follow any applicable Terms of Reference of the Regional District for preparation of hydrogeological assessment reports and should also include, but is not limited, to the following:
 - a. definition of study area and the relationship of the proposed property development to the protected aquifer;
 - b. capture zone analysis for existing and proposed new wells;
 - c. identification of the location of any existing or proposed above ground or underground fuel storage tanks, abandoned or operational water wells, septic tanks and drainage fields, and underground pipelines such as water, sewer or natural gas;
 - d. identification of potential impacts on adjacent properties and land uses;
 - e. inventory of potential contamination sources and how the applicant will manage hazardous materials storage, handling and disposal so as not to compromise the integrity of the underlying aquifer; and
 - f. identification of appropriate site-specific groundwater protection measures to ensure the quality and quantity of water in the aquifer is protected.
- 2 Where a proposed development will include any of the purposes or activities listed in Schedule 2 of the *Contaminated Sites Regulation*, (B.C. Reg. 375/96), the report prepared by a Professional Engineer or Geoscientist with experience in hydrogeology (as described in Guideline 1) shall be required to confirm the protection of the aquifer in relation to the intended uses.

In this case, the professional report should additionally include the following:

- a. indicate the site location of activities listed in above mentioned regulation;
- b. assess the potential for contamination and the expected results should a spill occur; and,
- c. address site design, and best management practices for site drainage, sewage disposal and hazardous material use, handling, storage, disposal and spill response.

- 3 The report will form part of the Development Permit terms and conditions and may include recommendations pertaining to registration of a Section 219 Covenant, with the RDCK as Covenant Holder, to prohibit particular high risk land uses or activities or to specify other restrictions on use of the property.
- 4 The use or disposal of substances or contaminants that may be harmful to area aquifers is discouraged and steps must be taken to ensure the proper disposal of such contaminants.

- 5 During construction, the creation of any building piles and test holes drilled for geotechnical purposes must be reported to the RDCK, and must be properly closed upon completion, to prevent the migration of contaminants to the aquifer.
- 6 Land stripping, excavations, ditching and trenching must be minimized.
- 7 Control mechanisms should be used to minimize erosion and siltation.
- 8 Impervious surfaces should be minimized.
- 9 The use of permeable paving and other methods to reduce rainwater runoff are encouraged.
- 10 Xeriscape, and other low water use approaches, is the preferred landscaping technique.

DIVISION 55 ELECTORAL AREA 'I' INDUSTRIAL AND COMMERCIAL DEVELOPMENT PERMIT (ICDP) AREA PROHIBITION

5501

Land within the ICDP area must not be subdivided and construction of, addition to or alteration of a building or other structure must not be started without first obtaining a ICDP unless otherwise exempt in this Bylaw.

Exemptions

5502

A Development Permit will not be required for any of the following activities:

- a. subdivision;
- b. development associated with agricultural, residential or institutional land uses and activities;
- c. construction of, addition to, or alteration of a building or structure involving only: interior renovation; repair or maintenance; façade improvement to an area less than 20% of the existing façade; an addition to a principal building less than 55 square meters and construction of an accessory building; and,
- d. temporary buildings and structures associated with permitted construction or permitted by a Temporary Use Permit.

Guidelines

5503

Form and Character of Buildings:

1. Buildings and structures should be sited and shaped in such a manner as to be visually unobtrusive and aesthetically pleasing.
2. The shape, siting, roof line and exterior finish of buildings should be sufficiently varied to reduce the visual impact and apparent massing on adjacent areas.
3. Parking should be in smaller clusters to the rear or side of the building and be screened from view from adjacent residential uses.

Landscaping and Screening:

1. The retention of natural vegetation and mature trees is encouraged.
2. Outside storage and manufacturing areas should be located to the rear of buildings where appropriate and should be adequately screened.
3. Landscaping should be provided along all perimeter roads.
4. Industrial development adjacent to residential development should utilize a combination of landscaping and planted berms to provide visual and acoustic buffering between uses.
5. Landscaping features and finishing details should be provided to reduce the negative visual impact of chain link fencing visible from roads or residences.

Miscellaneous:

1. Lighting of facilities visible from roads or residences should be kept to the minimum necessary for safety and visibility. Lighting equipment should be carefully chosen to focus light on the area to be illuminated and avoid spillage of light into other areas. Fixtures with a full cut-off angle should be used. Lighting should be directed and shielded away from roads or residences to prevent light pollution.
2. Signage should be low, visually unobtrusive and grouped whenever possible. Particular emphasis should be given to signage which is aesthetically pleasing and requires a minimal amount of lighting and boldness to be effective.

Interpretation

5601

Unless otherwise defined in this Bylaw, the definitions contained within this Section shall have the same meaning as those terms defined in the *Riparian Areas Protection Regulation* (RAPR), as amended from time to time

Activities that require a Development Permit

5602

The owner of land within the RPDP Area must obtain a development permit prior to undertaking or permitting or acquiescing in the undertaking of the following activities wherever they occur on land identified as a riparian assessment area within the RPDP Area:

- a. removal, alteration, disruption or destruction of vegetation, including trees, plants and shrubs;
- b. disturbance of soils;
- c. construction or erection of buildings and structures;
- d. creation of non-structural impervious or semi-impervious surfaces;
- e. flood protection works including shoreline protection works;
- f. construction of roads, trails, retaining walls, docks, wharves and bridges;
- g. provision and maintenance of sewer and water services;
- h. development of drainage systems;
- i. development of utility corridors;
- j. subdivision as defined in section 455 of the *Local Government Act*; and
- k. any other activity that requires a development permit first be issued in accordance with section 489 of the *Local Government Act*.

Exemptions

5603

A Development Permit is not required for the following activities:

- 1 A Development Permit or Section 219 Covenant has already been registered against the title of land, with the RDCK as a Covenant Holder, that has addressed that all RPDP Area guidelines for the proposed activities, the conditions of the Development Permit or covenant have been met, and the development activity will not impact the conditions of the previous approval or covenant.
- 2 All development activity will occur outside of the RPDP area and the RPDP area is delineated by brightly coloured snow fencing for the duration of the development activities occurring on the lands.
- 3 The RPDP area has been identified by a Qualified Environmental Professional (QEP) and is permanently protected, to the satisfaction of the RDCK, by a Section 219

Covenant with the RDCK as a Covenant Holder, return to Crown land, or dedication to the RDCK as a public park.

- 4 There is a change of use or renovation of a building where all of the following can be achieved within the RPDP Area:
 - a. the building footprint will not be altered or increased;
 - b. no heavy machinery will be present; and,
 - c. the riparian area is delineated by brightly coloured snow fencing and silt fencing for the duration of the development activities occurring on the lands.
- 5 Removal of noxious weeds and/or invasive species in accordance with the Central Kootenay Invasive Species Society's "Integrated Pest Management Options" for specific invasive species.
- 6 Restoration or enhancement as part of an approved local stewardship project and carried out under the recommendations and guidance of a QEP.
- 7 The planting of riparian species that are native to the Central Kootenay using non-mechanized methods.
- 8 Where a QEP has inspected the site and confirms to the satisfaction of the General Manager of Development and Community Sustainability that the actual location of the riparian area is not on the lands proposed for development.
- 9 Development activity that has been permitted by an authorization under the *Water Sustainability Act* or *Fisheries Act* where no disturbance will occur on the upland property unless otherwise permitted by the authorization. A copy of the authorization must be provided to the RDCK to demonstrate that the proposed works will not impact the riparian area.
- 10 Subdivisions, including lot consolidations and lot line adjustments, where the newly proposed lot lines do not fall within the RPDP Area, or where all of the following criteria are satisfied:
 - a. the plan of subdivision demonstrates that all development activities and building platform areas, or minimum site areas where zoning is in place, for each lot can be accommodated entirely outside of the RPDP Area;
 - b. no disturbance (such as grading, clearing, trenching, and the installation of site infrastructure) to the RPDP Area will occur as a result of the creation of lots or provision of services to those lots;
 - c. the RPDP Area has been identified by a Qualified Environmental Professional (QEP) and clearly delineated on site; and
 - d. a Section 219 Covenant, with the RDCK as a Covenant Holder, that contains recommendations to ensure adverse development impacts will be effectively mitigated must be registered over the RPDP Area against the titles of all newly created lots.
- 11 Lot line adjustments to the natural boundary of a watercourse resulting from the approval of an accretion.
- 12 Land alterations involving emergency measures to prevent or reduce immediate threats to life or property, where notice is provided to the General Manager of Development Services and Community Sustainability, in the following instances:
 - a. emergency works conducted under the direction of local or provincial government;

- b. tree limbing, topping, or removal, where the trees are identified as an immediate threat to the safety of life or buildings, and all works are to be completed, by an arborist certified in BC in accordance with the relevant legislation as well as Provincial Best Management Practices regarding streamside vegetation. Limbing and topping are preferred and proposals for removal must be accompanied with a rationale for why the other actions are unsuitable;
- c. the environmentally sensitive removal of trees, shrubs or landscaping designated as hazardous in a FireSmart Assessment or fuel management prescription, prepared by a Registered Professional Forester (RPF) or RDCK Wildfire Mitigation Specialist, where such trees, shrubs or landscaping are compensated for elsewhere within the RPDPA Area using the replacement ratios provided in the RDCK's "Terms of Reference for Riparian Assessment Reports"; or,
- d. land alteration or vegetation removal deemed necessary to prevent or reduce immediate threats to life or property by a local, provincial, or federal government, or its agencies or contractors, performed under a declared state of emergency.

13 The land is located within British Columbia's Agricultural Land Reserve (ALR) and the activities:

- a. are responsible, normal agricultural practices carried out in accordance with the *Farm Practices Protection Act* and Farm Practice in BC Reference Guide. Interpretation or disagreements will be resolved through the provisions of the Act. Activities not covered by the Act or Guide will require a Development Permit; and,
- b. adhere to the "Riparian Protection Setbacks from Watercourses for Buildings and Facilities in Farming Areas" contained within the Ministry of Agriculture Guide for Bylaw Development in Farming Areas.

Guidelines

5604

- 1 An owner of land within the RPDPA Area seeking to develop such land under a development permit must seek to implement the requirements of the *Riparian Areas Protection Act* and *Riparian Areas Protection Regulation*.
- 2 A development application must include, as Development Approval Information, a Biophysical Assessment Report and *Riparian Areas Protection Regulation (RAPR)* Assessment prepared by a QEP as defined in, and in accordance with, the *Riparian Areas Protection Regulation* established by the Provincial and/or Federal governments as used elsewhere in the Province. The assessment report must include certification from the QEP that:
 - a. the QEP is qualified to carry out the assessment;
 - b. the assessment methods have been followed;

- c. in their professional opinion the development will not negatively affect the functioning of a watercourse or riparian area and that the requirements of the *Riparian Areas Protection Regulation* have been fulfilled;
- d. contain recommendations that reflect Provincially-recognized best management practices as well as the Brilliant Headpond Shoreline Management Guidelines;
- e. demonstrate a coordinated approach with other professionals involved with the project, such as, but not limited to Engineers, Hydrologists, Geoscientists, and Foresters; and,
- f. be consistent with the RDCK's "Terms of Reference for Riparian Assessment Reports", as amended from time to time.

3 Development activities and the siting of buildings and structures will be carried out in a way that results in the least impact to the riparian area.

4 Demonstrate that a diligent effort has been made to preserve existing riparian vegetation, woody debris, boulders, and other natural features.

5 Retain mature vegetation wherever possible and incorporate it into the design of the project.

6 Parcels created by subdivision must demonstrate on a Site Plan that there is adequate space for a building platform area and associated services outside of the designated setback, and in areas where zoning applies the minimum parcel size should be accommodated entirely outside of the setback area.

7 Where fencing is proposed within the RPDP Area, or to delineate the RPDP Area or a covenant area, wildlife-friendly fencing must be utilized to maintain landscape connectivity between aquatic and upland ecosystems.

8 Development proposals will be evaluated based on individual site characteristics (such as, but not limited to, sensitive habitat features, parcel size, topography, and access) and must adhere to the following priority sequence of mitigation options, as detailed further in the Brilliant Headpond Shoreline Management Guidelines, as amended from time to time and which is incorporated into these guidelines:

- a. Avoidance of environmental impacts and associated components;
- b. Minimization of unavoidable impacts on environmental values and associated components;
- c. Restoration of on-site environmental values and associated components; and,
- d. Offsetting impacts to environmental values for residual impacts that cannot be minimized.

9 The QEP must provide a recommended minimum setback from the stream boundary, consistent with the Provincial *RAPR* methodology, and from other habitat features present on the site (e.g. raptor nests) that is to remain undisturbed by development activities.

10 Limits of disturbance, such as silt fencing and/or snow fencing, to the setback must be in place prior to the commencement of any development activity or issuance of a Building Permit.

11 The setback shall remain free of development activities, except in unique circumstances where an applicant can demonstrate that all of the following criteria are fulfilled:

- a. the parcel was created by subdivision in accordance with the laws in force in British Columbia at the time the parcel was created;
- b. the applicant demonstrates that size or topographical constraints severely limit the ability to develop elsewhere on the property;
- c. every alternative site and building design that could minimize the impact on the riparian area has been explored, which may include variances or reductions in all possible requirements (including, but not limited to, setbacks and height);
- d. the Report adequately justifies why there are no other suitable alternatives to development activity within the setback and provides that, in the QEP's professional opinion the activity, as proposed, will not result in any harmful alteration, disruption or destruction of fish, fish habitat, or natural features that support fish life processes;
- e. development is directed to areas already subject to human disturbance; and,
- f. on-site environmental values will be restored in accordance with a restoration plan prepared by a QEP.

12 Development should be avoided on slopes greater than 30% (approximately 7 degrees) due to the high risk of erosion, bank slippage, and resulting sedimentation into watercourses.

13 Storm water will be managed in a way that utilizes natural approaches and on-site water recycling as well as preserves natural drainage patterns on the lands.

14 Preference will be given to flood and erosion protection works that utilize bio-engineering for the protection of both private property and the riparian area.

15 The conditions of the issuance of a Development Permit for the RPDP Area may require any of the following:

- a. areas of land that must remain free of development except in accordance with conditions in the permit;
- b. the preservation, protection, restoration or enhancement of natural features and watercourses;
- c. dedication of natural watercourses;
- d. construction works to preserve, protect, restore or enhance natural watercourses or other specified natural features of the environment;
- e. protection measures to preserve, protect, restore or enhance fish habitat or riparian areas, control drainage, or control erosion or protect banks;
- f. all works to be in accordance with a QEP's recommendations, as provided in the biophysical assessment report;
- g. monitoring of the development activities by a QEP;
- h. specific timing or sequence of development activities to minimize impacts to the natural environment;
- i. limits of disturbance to be in place for the duration of the development activities; and,
- j. a security deposit in accordance with the *Regional District of Central Kootenay Planning Procedures and Fees Bylaw No. 2457, 2015*, as amended from time to time.

16 Other Provincial and Federal Requirements:

The *Riparian Areas Protection Regulation* implemented through the RPDP does not supersede other Federal, Provincial and or local government requirements, including that of other development permit areas, building permits, flood covenants, Federal or Provincial authorization. Land subject to more than one development permit area designation must ensure consistency with the guidelines of each development permit area, to provide comprehensive stewardship of both fish and wildlife habitat.

DIVISION 57 ELECTORAL AREA 'I' WILDFIRE DEVELOPMENT PERMIT (WDP) AREA

Interpretation

5701

Development, in the context of this development permit area, means carrying out construction, redevelopment, building and land alteration and ancillary activities, including engineering or other operations, as well as subdivision of land, in, on, over or under land and land covered by water to the extent that such activities are subject to local government authority under enabling Provincial legislation.

Activities that require a Development Permit

5702

The owner of land within the WDP Area must obtain a development permit prior to undertaking or permitting or acquiescing in the undertaking of the following activities wherever they occur on land within the WDP Area:

- a. construction, erection or alteration of, or addition to, buildings and structures;
- b. subdivision as defined in section 455 of the *Local Government Act*; and
- c. any other activity that requires a development permit first be issued in accordance with section 489 of the *Local Government Act*.

Exemptions

5703

A Development Permit is not required for any of the following activities:

- 1 Where an applicant for a Building Permit has submitted plans for construction that show compliance with these guidelines, and the owner has entered into a Section 219 Covenant, with the RDCK as a Covenant Holder, for compliance with the plans submitted which has been registered on the title of the property;
- 2 The construction of or alterations to accessory buildings or structures that are not in excess of 55 square meters and are further than 10 meters from other buildings;
- 3 Additions to existing approved buildings that are not in excess of 25% of the existing gross floor area;
- 4 Technical subdivision for road widening, parcel line adjustment, or lot consolidation of a parcel;
- 5 Subdivisions creating less than 4 new parcels;
- 6 Subdivisions creating more than 4 new parcels, where both of the following conditions are met:
 - a. the owner agrees to register a Section 219 Covenant, with the RDCK as Covenant Holder, on the titles of all new and remainder lots created through subdivision, to ensure compliance with Section 5517 of these guidelines which regulate building materials and landscaping;
 - b. that a Registered Professional Forester, specializing in wildfire risk and fuel hazard assessments and fuel management, has submitted a report that indicates

- that the subdivided properties have a low wildfire hazard rating within 30 meters (the home ignition zone) of the building envelope areas; and,
- c. the Report(s) shall be attached to the Section 219 Covenant;
- 7 Interior renovations to existing buildings;
- 8 A new roof or a complete roof replacement using material that conforms to Class A, B or C, or equivalent, fire resistance as defined in the BC Building Code;
- 9 Any development comprised entirely of non-combustible materials such as metal, stone or concrete;
- 10 New accessory buildings and decks will not trigger landscaping requirements noted in Section 5515, except for Accessory Dwelling Units, provided they are located farther than 10 meters from other buildings;
- 11 Addition of rooftop equipment (e.g. HVAC), canopies, or other decorative roof structures that do not require a Building Permit.
- 12 The activity proposed on the site is a land alteration that relates solely to normal farm practices in accordance with the *Farm Practices Protection Act* and the landowner follows other regulations listed in the *Act*.
- 13 Landscape maintenance, installation, internal alterations, renovations, and land alteration activities that do not increase wildfire risk.

Guidelines

5704

Landscaping:

- 1 All areas within 1.5 metres of principal buildings should be free of coniferous vegetation and combustible materials (such as patio furniture, hot tub covers, etc.).
- 2 Individual coniferous trees may be located within 3 metres of a building, provided:
 - a. no other conifers are within 6 metres (measured from trunk to trunk) of the conifer;
 - b. exterior portions of the building fronting the tree's existing and eventual canopy are clad in fire resistant materials such as stucco, metal siding, brick, cement shingles or boards, concrete block, poured concrete, logs or heavy timbers and rock as defined in the *BC Building Code*; and
 - c. building roofing is comprised of metal, clay tile, fiber-cement, asphalt shingle or similar material; wood shakes of any kind are not acceptable.
- 3 No bark, mulch, or any other combustible material should be located within 10 metres of the outer edge of any building structure.
- 4 Separate any fencing built with combustible materials to be at least 1.5 metres from any dwellings.

Building Materials – Roofing:

- 1 The roof covering shall conform to Class A, B, or C fire resistance as defined in the *BC Building Code*.
- 2 Gutters shall be made of metal.

Building Materials – Exterior Cladding:

- 1 Untreated combustible materials should make up less than 20% of the surface area of an exterior elevation. Window and door trim, fascia, eaves, soffits, the underside of decks, siding and cladding are included in the determination of 20% combustible surface area per elevation. Roofing is excluded in the determination.
- 2 Manufactured homes shall be skirted with skirting that has a fire-resistance rating in accordance with CAN/ULC-S101.

Building Materials – Overhanging Projections:

- 1 Balconies, decks, and porches (no exposed joists) shall be sheathed with fire-resistant materials.

Building Materials - Eaves, Soffits, and Vents:

- 1 Eaves and soffits shall be closed so no joists are exposed.
- 2 Ventilation openings in exterior walls, roofs, eaves, and soffits shall be covered with corrosion-resistant 3 mm non-combustible wire mesh. Wall-mounted exterior vents are exempt from having wire mesh with 3 mm openings if vents with mobile flaps are used (subject to venting requirements in the *BC Building Code*).

Building Materials – Chimneys:

- 1 Chimneys for wood burning fireplaces must have spark arrestors in compliance with NFPA 211.

Site Design:

- 1 Building sites are encouraged to be located on the flattest areas of the property, avoiding gullies or draws that accumulate fuel and funnel winds.
- 2 Buildings are encouraged to be sited, and road accesses designed, in order to accommodate fire fighting vehicles and equipment.
- 3 A fire-resistant zone of at least 10 metres, where practical, should be managed around buildings and structures with the goal of eliminating fuel and combustible debris, reducing risks from approaching wildfire and reducing the potential for building fires to spread to the forest.
- 4 Auxiliary buildings and fuel tanks should be located as far away from buildings as possible. A distance of 15 metres or more is ideal. Where a distance of 15 metres or more is impractical, guidelines in this section that apply to principal buildings should be applied to accessory buildings.

Subdivision:

- 1 As part of the subdivision process, the RDCK should receive a Wildfire Hazard Assessment prepared in accordance with the Regional District's Terms of Reference for Wildfire Hazard Assessments. The Wildfire Hazard Assessment and plan of subdivision should address the following guidelines:
 - a. Provide firefighting and emergency access to adjacent forested areas (such as through an access encircling the development, periodic access to the forest edge, or by placing access adjacent to forested areas). Consider, where the subdivision

abuts forested areas, placing accesses so that they act as fuel breaks to protect the development and buildings;

- b. Provide a minimum of two means of access points with road systems capable of supporting evacuation and the movement of fire suppression equipment. The number of access points and their capacity should be determined during subdivision design and be based on threshold densities of houses and vehicles within the subdivision. Single access may be considered where the development contributes to a future road network with multiple access points or where an emergency access route can be constructed;
- c. Set back development a minimum of 10 m from the top of ridgelines, cliffs, ravines, or the top of slopes exceeding a 20% grade for a minimum horizontal distance of 10 m. Variation of the setback may be considered if a Wildfire Hazard Assessment can justify a change in the setback; and,
- d. Where wildfire hazard levels are high, as determined by a Registered Professional Forester in a Wildfire Hazard Assessment, mitigation measures should be taken as recommended by the Registered Professional Forester to reduce the wildfire hazard rating to moderate or low.

2 Proposed deviations from the guidelines outlined in Section 5514.1-19 [Landscaping, Building Materials, Site Considerations, Subdivision Requirements] may be appropriate if the report verifies that the expected level of performance meets or exceeds the level of fire safety conferred by the guidelines outlined in the Wildfire Development Permit Area.
