All Controlled Waste items and Prohibited Waste items are defined in the Resource Recovery Facilities Regulatory Bylaw. Consult the full text of the Bylaw to see if your product qualifies.

Product Stewardship Materials

Product stewardship programs are provincially-regulated and apply to all areas of BC. They require producers/retailers of designated materials to collect and recycle their products at end-of-life. Designated materials should be brought to collection depots—not disposed of with regular garbage or recycling. Call the RCBC hotline at 1-800-667-4321 or visit www.rcbc.ca to find out where to take any of the following:

- Antifreeze
- Batteries
- Beverage containers
- Electronics and electrical products
- Flammable liquids
- Gasoline
- Light bulbs
- Packaging & Printed Paper
- Paint products/solvents
- Pesticides
- Pharmaceutical products
- Tires
- Used oil/containers/filters

Recycling in the RDCK

Recycle BC is one of the Extended Producer Responsibility (EPR) Programs responsible for residential packaging and paper products recycling throughout BC. The RDCK is part of RBC collection network, operating 20 recycling depots on their behalf.

Areas with Curbside Service

Residents in the City of Nelson and the Village of Kaslo receive RBC curbside recycling service. For more information about curbside recycling contact the local municipality or visit www.recyclebc.ca.

Areas without Curbside Service

Other areas in the Central Sub-Region utilize recycling depots. All materials, must be sorted into their appropriate categories for deposit. Visit the RDCK website at rdck.ca for details.
