## Evacuation Alert rescinded for Duhamel Creek

Nelson, BC: The Regional District of Central Kootenay (RDCK) Emergency Operations Centre (EOC) has rescinded the Evacuation Alert for 165 properties in the community of Six Mile, just north of the City of Nelson, around the Duhamel Creek fan in Electoral Area F.

A hydrologist assessment indicates the water levels of Duhamel Creek are below the banks and contained within the channel. The current Environment and Climate Change Canada forecast supports a rescind of the Evacuation Alert.

BC River's Forecast Centre's flood watch remains in place for the West Kootenay region which covers the entire RDCK. Residents are advised to remain prepared. The key to emergency preparedness is knowing the risks and having a plan. Know the hazards in your areas and take the time NOW to assemble your family [Emergency Kit and Grab and Go Bag](#). Your plan should also include where you will meet if you need to evacuate, including how you would move pets and livestock to a safe area, in the event the situation worsens, and an Evacuation Order is enforced.

A reminder that fast-flowing rivers pose increased risk to safety. Stay away from rivers and river banks, which can be unstable. Never drive through floodwaters, as unseen hazards and current can be life threatening. All residents should exercise extreme caution around rivers and creeks and report erosion, landslides, or flooding to the [Provincial Emergency Coordinator Centre](#) at 1.800.663.3456.
