# EVACUATION ALERT RESCINDED

**Date:** May 31, 2026

**Time:** 13:15 hrs

The Regional District of Central Kootenay has been advised that the potential for imminent danger of flooding to the life and property of persons, resident or present within the communities along the Lardeau River, Duncan River, and surrounding tributaries stretching from the northern end of Kootenay Lake to Trout Lake in Electoral D, has diminished at this time due to water levels dropping below levels that would cause concern for flooding.

**The Evacuation Alert has, therefore, been RESCINDED for all properties under Evacuation Alert.**

In the event conditions change, Evacuation Alerts or Orders may be re-issued and the evacuation process will recommence.

A handwritten signature in blue ink, appearing to read "Nora Hannon", written over a horizontal line.

**Nora Hannon**  
Director, RDCK Emergency Operations Centre
